Chicago Kid Records is pleased to announce the newest big leap and our greatest expansion to date! We have just created a new deal between Chicago Kid and Madonna's **Maverick/WB Records** for the forthcoming album by **The Wil Seabrook Band**.

Special thanks to Guy Oseary, Danny Strick and Ronnie Dashev for their strong support. A stunning new album produced by John Ryan has just been completed for early 2003 release. Mixers included Chris Lord Alge, Dave Thoener and Tony Phillips. The album features band members Fernando Raimo from Brazil on bass, Erez Ginat from Israel on drums, and Arnold Graham from San Diego on guitar. A colorful and talented international support cast for Wil... David Campbell provided fantastic string arrangements. Early response from the many friends at radio we made on our last effort, make us feel we have a big one here.

Chicago Kid and Cottage Grove Music have just married Wil with **Warner Chappell Music** for the thoughtful exploitation of his wonderful songs around the world.

In that spirit, and with the addition of the fabulous **Monterey Peninsula Artists** booking agency to our team, you can see Wil all over the USA this summer. For the most recent dates with...

MIDNIGHT VULTURES

Kate Ceberano & Beck party hard.

» EX-SYDNEY SINGER **KATE CEBERANO** HAS BEEN performing a series of showcases at the Viper Room, in LA, pegged to her upcoming album *Between Sunset & Fountain Ave.* The 30-minute sets have covered all bases, ranging from the feisty "Bring It On", which Ceberano wrote with **DEF LEPPARD** guitarist **VIVIAN CAMPBELL**, to the ballad "Storm", which she penned about her late grandmother Kath. Described as "Madonna meets Dido", the album "is a really typically Ceberano mixed bag of lollies," she jokes. "It's extremely positive and musically uplifting." Ceberano's written or co-written all the songs from her new home which is located between Sunset Boulevard and Fountain Avenue. Living in the City of Angels is still agreeing with the Aussie chanteuse. "The place is a completely neutral environment," she says. "It's up to your own imagination to create your own boundaries or lack

of boundaries." Colleagues and buddies who've turned out to the performances include: **BECK** ("what a dude, he's the original man who fell to earth!"), **NIKKA COSTA**, **JULIETTE LEWIS**, **JENNA & BODHI ELFMAN**, **JAG**'s **CATHERINE BELL**, **KIRSTIE ALLEY**, plus Aussies **JULIAN MCMAHON**, **JUSTIN MELVEY**, **KYM WILSON**, **FIONA HORNE** and music producer **JUSTIN STANLEY**.
